

Upbeat

Workplace Moments Maximized.

In the age of rapidly transforming businesses, workspaces are also becoming increasingly dynamic. Today, workspace is no longer just a place where people sit and work; it is meant to serve as an extension of our ideas, personality and the way we get work done.

New-age workspaces need next-gen furniture solutions that inspire optimum performance. Solutions need to be designed to fit every individual's personality.

We believe that when the work environment is seamlessly designed, employees get so engrossed in work that they tend to lose track of time or even the presence of anyone around. This is the phenomenon that we call state of flow.

Flow takes your performance to the next level. It helps you tap into the large reservoir of dormant potential and give you optimum output.

This state of flow is not only valuable to individuals, but it also contributes to the organizational goals. Finding ways to increase the frequency of the flow state experiences can be one way for people to work together to increase the effectiveness at their workplace. Experience Moments at workplace.

FREEDOM OF CHOICE

Upbeat lets you modulate the right privacy levels required. It creates that spot required to get in to the State of Flow. The light-weight removable screens placed on each workstation revolutionize the way people can swiftly change from a focused task to a collaborative task.

With the use of removable screens, the cluster can be converted into a collaborative space.

The cluster being used as focused work zone.

With all screens removed, the workstation cluster is converted into a conference table.

LIVE,
WORK,
CREATE.

With Upbeat Interactions seem easy, effortless and seamless between peers.

The high tables which are the part of 'Upbeat' system are aimed at providing a healthier work environment to its users. It essentially provides the users a choice - to sit or to stand while working. Apart from the health benefits both sit/stand scenario also enhances the way in which people communicate and interact with each other. By bringing the eye levels of the two in similar elevations conversations become more natural and intuitive.

Whether you sit or stand; be at an equal height with Upbeat high tables and seating arrangement.
