Open Shelf (double)

HABITAT

Godrej interio®

THE PERFECT OFFICE  
IS THE OPTIMAL SETTING -  
WHEN YOU NEED IT,  
WHERE YOU NEED IT,  
IS FLUID,  
IS A NEW STAGE FOR A NEW TASK,  
IS A MYTH NO MORE.

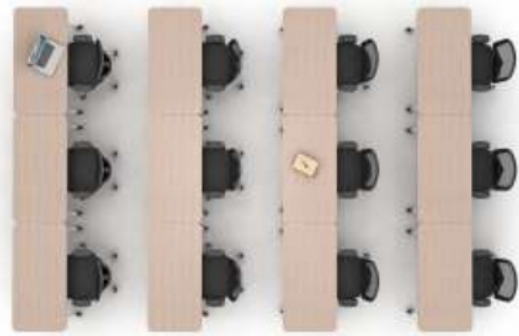

India Design Mark is a design standard, a symbol, which recognizes good design. It symbolises excellence in form, function, quality, safety, sustainability, and innovation and communicates that the product is usable, durable, aesthetically appealing and socially responsible.

We believe that great workplaces come from giving users the tools they need to create, re-create, regulate and optimise their environment to create the setting they need when they need it, fast.

A leap beyond trying to predict and project the needs and behaviour of the users of the future, Habitat is designed to flow as a user does from task to task; calibrating itself around the unique needs that each new task demands.

Habitat is designed keeping in mind the needs of an agile organization. Mobile, modular and stackable, Habitat creates multi-use spaces that are easy to configure and reconfigure, making possible the creation of a range of workspaces with minimal cost and effort involved.

Habitat is designed for flexible organizations. It is built to enable smooth transitions from one task to another with incredible ease. The simplicity of altering the workspace with Habitat is remarkable due to its innovative, path breaking design. It plays an intuitive-adaptive as well as non-interruptive host to almost any kind of workflow or procedure.

Habitat consists of multiple mobile elements. Lightweight and enabled by castors, these elements can be used in isolation or teamed together to create multiple configurations suited to a multitude of working needs.

- 1 WALL – Full Height Modular Partitioning System
- 2 Workout – Height Adjustable Table
- 3 Ethos Task Light
- 4 Fold Table
- 5 Mobile Marker Board Screen
- 6 Wish Panels
- 7 MiMo

Habitat keeps in mind the needs of every stakeholder at the workplace. So while users may keep experimenting with layouts within their work area, the Habitat panels ensure this area of activity is confined, allowing the floorplate as a whole to remain orderly.

Habitat's features are thoughtfully designed, ensuring ease and convenience for the user.

It comes with a fixed ledge above the mobile table. Wired devices and desktops can be placed on the ledge at an optimal height, so hassle-free mobility can be a benefit available to desktop users as well.

Accessories like a name plate, CPU holder, open shelves and a pedestal with personal storage help organize and personalize space.
